*Education Built on Relationships*

March 12, 2020

Dear Parents and Guardians:

Senior Administration is taking additional measures to help prevent the transmission of COVID-19 at Linden Christian School and the wider community, as well as to support the province's health care system.

Today, this means that field trips planned for the period March 16 through April 30, 2020 have been cancelled. In addition, we anticipate large school gatherings will be halted for a period of time. Details of refunds associated with the cancellation of field trips will be provided to affected families on a trip-by-trip basis.

I will be providing separate advice to affected families on the out-of-province events scheduled for SY Performing Arts students in April and May early next week.

In addition, for those of you that have children in Drivers Education, you should have received advice that all classes have been suspended until April 5. Questions related to Driver Education Training need to be directed to MPI at 204.985.7199.

Once again, I thank you for your ongoing prayerful support.

Robert Charach,

Principal and CEO
