Education Built on Relationships

March 31, 2020

Dear Parents and Guardians,

This morning, Premier Brian Pallister and the Minister of Education Kelvin Goertzen announced that classroom learning has been suspended indefinitely for this school year. The Province's expectation for K-12 students to be actively engaged in remote learning remains.

Linden Christian School continues with its commitment to maintain excellence in programming, and as promised Administration will revisit the online and supported learning plan with a view to developing a longer-term plan. You will hear from me next week in this regard.

I encourage you to read the following News Release received from the Province as it addresses a number of key items.

Continuing to keep you in prayer,

Robert Charach
Principal and CEO
