*Education Built on Relationships*

Dear Parents and Guardians,

This school year has certainly not unfolded the way we had envisioned. At this time, we are processing new information and working to ensure we adhere to provincial directives.

Following Premier Brian Pallister's announcement yesterday, it was noted classroom learning will remain suspended for the remainder of the school year. He also stated that there would, however, be some limited access to educational facilities, where physical distancing can be maintained, for students. He cited examples of what this could entail, including an allowance for additional tutorial support, one-on-one learning or assessment. He also indicated that additional teaching days are being examined for the 2020-2021 school year, including a start date of August 31. As you can imagine, the situation is fluid and unfolding everyday, which makes planning a challenging process.

The protocol for making arrangements for personal meets will be shared in a letter that will be released early next week. The letter will also outline significant dates and virtual events that will be held to conclude the 2019-2020 school year.

We deeply appreciate your ongoing support and prayer as we plan and prepare for the learning needs of our community.

In His Service,

Robert Charach  
Principal and CEO
