Education Built on Relationships

Dear LCS Families,

I today received confirmation that the 2020-2021 school year will begin on September 2 for staff only (no students). The first three school days (September 2, 3 and 4) are non-instructional days that will be spent by us in planning for the 2020-2021 school year, i.e. participating in any new COVID-19 related training, preparing physical spaces, educating staff on public health protocols, and to engage collaboratively on approaches to recovery learning.

We are planning for students in grades 1 through 12 to be in class on Tuesday, September 8 and will make needed adjustments based on Manitoba Health directives. Kindergarten students will receive separate advice on their start dates because of the staggered entry protocol.

School offices are scheduled to open on Monday, August 24.

Next week the Administration Team will invite you to participate in a survey to obtain your feedback on the remote learning environment. You will also have the opportunity to make recommendations associated with this approach to learning just in case the need arises.

Thank you for your continued feedback and ongoing support as we plan to welcome students back for the 2020-2021 school year.

Robert Charach
Principal and CEO
